

Renal Transplant List Management at the QEHB.

Lucy kirk

Lead Renal Recipient Transplant
Coordinator

Delivering the **best** in care

University Hospitals **NHS**
Birmingham
NHS Foundation Trust

Change – Number One Improve referral system.

- Considered too long from referral to listing.
- One point of contact.
- uhb-tr.RenalTransplantCoordinators@nhs.net
- Receive an immediate response that referral has been received.
- TimeLine data (future audits).
- Referral meeting (twice a month).
- ****New**** Transplant Assessment MDT (weekly).

Change – Number Two. Preemptive listing.

Transplant coordinator present in the weekly CKD MDT (including living coordinator team).

Improved communication, documentation, planning patient care.

Has it worked.....

Kidney-only adult recipients who were first registered at the QEH Birmingham in 2013-2016, as active and as suspended, from UK renal centres per calendar year, including patients who have been registered as suspended and not yet made active or registrations that resulted in a live donor transplant

Referring Unit			2013	2014	2015	2016
			Total	194	191	185
Birmingham, Queen Elizabeth Hospital	Haemodialysis	Active	34	40	31	37
		Suspended	13	13	13	7
	Peritoneal dialysis	Active	16	20	13	12
		Suspended	4	6	8	3
	Not on dialysis	Active	7	17	16	30
		Suspended	2	7	17	6

Change – Number three.

Annual review requirements.

- Instruction from NHSBT.
- Annual review form emailed 3 months before review date due (can be submitted prior to due date!).
- Further 3 months given after due date.
- Failure to return form will result in suspension/ possibly removal.
- Traffic light system in place.
- Patients receive a letter.
- Clever system but only if returned electronically
 - * RenalTransplantCoor@uhb.nhs.uk

Annual Review Data.

- Started Nov 2015.
- 722 forms sent out.
- 345 forms returned.
- 261 waiting to be returned.
- Gold star award....

Adult kidney only transplants at Birmingham by donor type

Key messages

- Use the one point of contact for referrals.
- Submit AR forms – after patient assessment and discussion.
- Communicate – immediately about suspensions/ changes.
- Referral MDT meeting – proved to be invaluable.
