

# Acute Kidney Injury (AKI) Prevention and Early Detection

**1 in 5  
emergency  
admissions is  
associated  
with AKI**

**1 in every 3-4  
cases of hospital -  
acquired AKI is  
preventable**

**AKI prolongs  
inpatient care and  
increases hospital  
mortality**

**RECOGNISE, EVALUATE, INVESTIGATE, ACT, LIAISE**

Ashford and St Peter's Hospitals are involved in a Health Foundation project tackling Acute Kidney Injury

**Aims:** Timely alerting of pathology results to clinical teams
