

Kidney Quality Improvement Partnership (KQuIP)

Closing Statement and Next Steps

Graham Lipkin
Co-chair of KQuIP

•Review of Key Outcomes:

- Know your data
- Identify your Unit QI leads: Medic and MPT
- Decide on your Unit Key priority project
- Feel supported to embed QI in your practice
- What's Next?

What do I do next - as Part of KQuIP?

1. Communication: Sign up to KQuIP to stay informed
2. Structure: Define and work with your QI leads within your Unit
3. Support: Explore local QI & PM resource within Trust to support you
4. Teams: Agree project lead for your key QI Focus and build small steering group team

Which National KQuIP Priority Project?

- Improving access to kidney transplantation; Transplant First

Transplant First, developed in West Mids under KQuIP. Now packaged.

- Improving access to home therapies for suitable patients

Home Therapies project to launch in 2018 with West and East Midlands regions

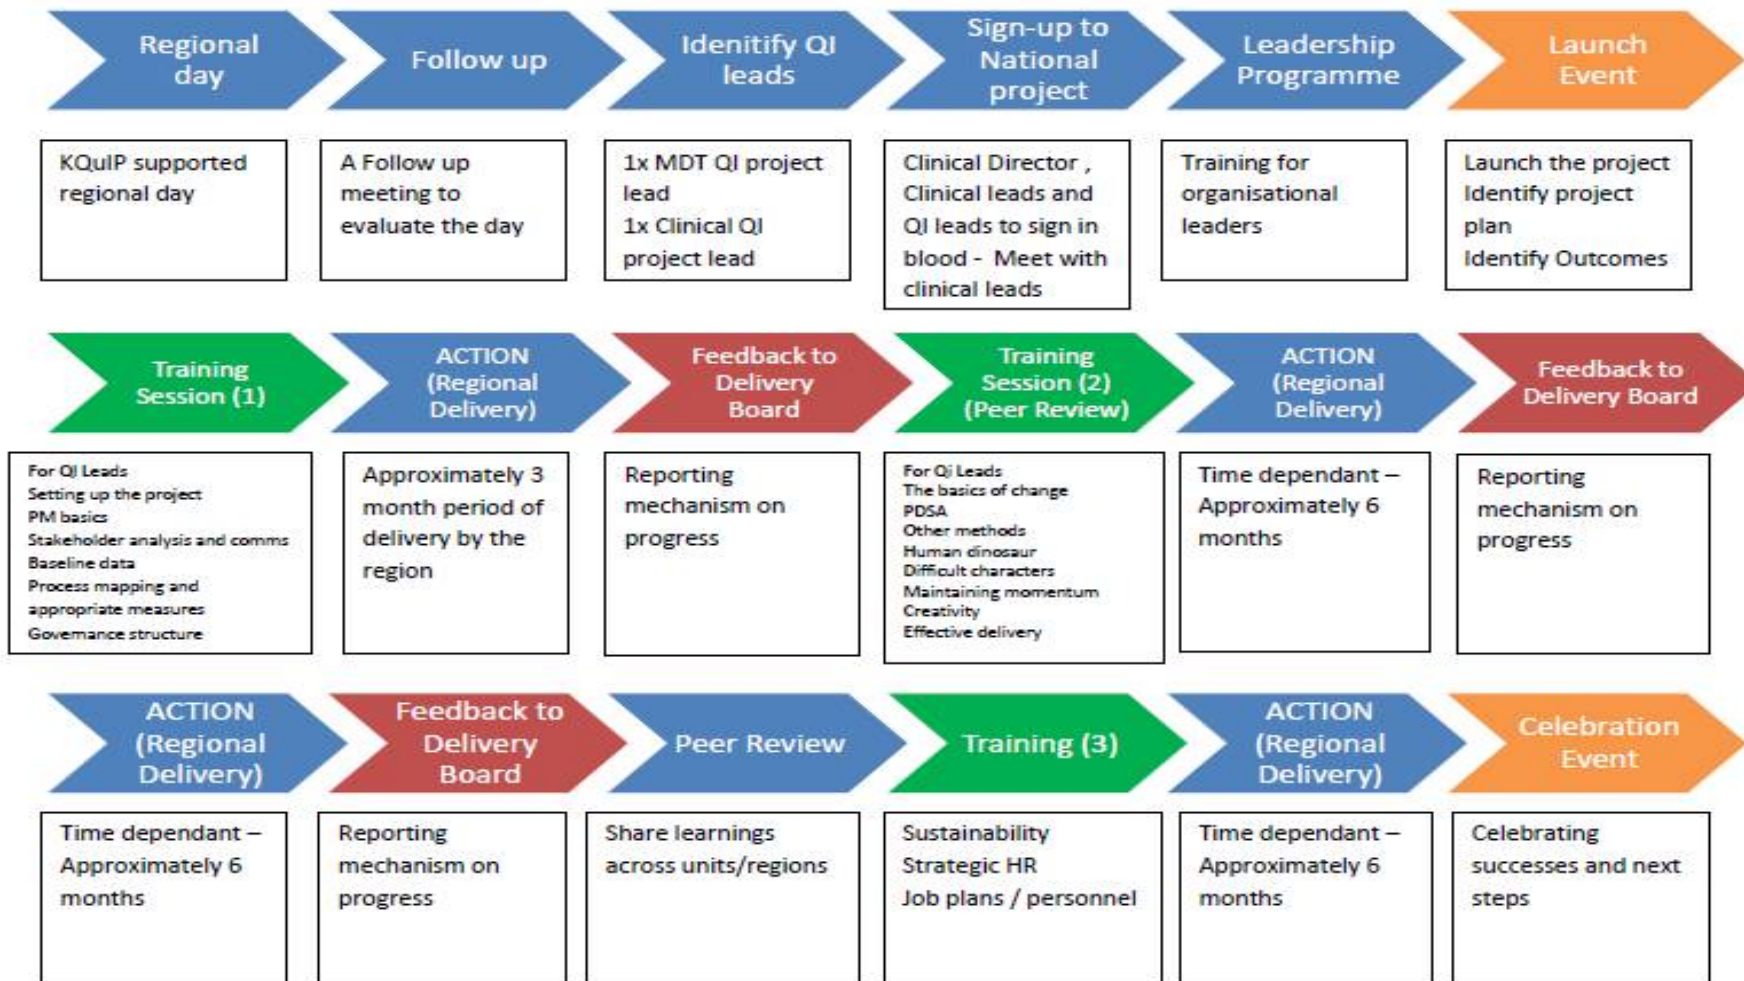

- Improving Vascular Access – Managing Access by Generating Improvement to Access (MAGIC)

Yorkshire and Humber region to commence project early 2018

KQUIP Support following today?

1. Regional QI Days Report
2. NW Region Webpage-talks and data
3. Project management support - Vicky/James
4. KQuIP Hub-talks and data
5. NW Regional Delivery strategy

KQuIP NW Regional Delivery Support Plan

KQuIP welcomes you...

...enabling you and your team to improve quality and safety

Kidney Quality Improvement Partnership

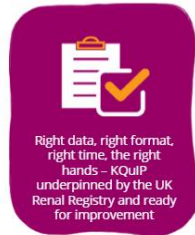

Working together to develop, support and share improvement in kidney services to improve people's health and add value

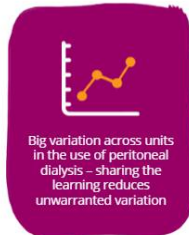

A unique clinician led inclusive partnership of professionals, patient groups, and quality improvement professionals

Every year more people need renal replacement therapy – improvement drives efficiency and effectiveness

Right data, right format, right time, the right hands – KQuIP underpinned by the UK Renal Registry and ready for improvement

Big variation across units in the use of peritoneal dialysis – sharing the learning reduces unwarranted variation

UK Renal Registry 18th Annual Report

www.thinkkidneys.nhs.uk/kquip/

What is KQuIP?

KQuIP is a dynamic network of kidney health professionals, patients and carers who are committed to developing, supporting and sharing quality improvement in kidney services in order to enhance outcomes and quality of life for patients with kidney disease.

What does KQuIP do?

KQuIP will improve the lives of adults and children affected by kidney disease by supporting healthcare professionals, kidney units, renal networks and commissioners across the UK to achieve the highest quality of care for patients.

- Have a good
