Inconsistent referrals

- Quality
- Who sent to
- How referrals are received

Communication between different NHS Trusts

- nhs.net emails
- Sending confidential/secure e-mails
- Faxing
- Accessing other units results

Suspensions – delays in reactivation

- Regular review of all suspended patients
- Nephrology teams letting us know when their patients are ready for reactivation
- Transplant MDT meetings
- Encouraging patients to be more involved
- Cytotoxic antibodies
- Grading/rating system

Positives

- New transplant assessment appointments:
Individualised care 1:1
- Patient education meetings
- Good working relationships
