Thank you for your time

Please feel free to provide us with any more comments:

- Acoustics of the room were not good when the water heater was on
- Acoustics of the venue poor, difficulty hearing
- I feel that I am more equipped to start the project. We lack up to date education and we wanted to implement the guidelines – copies have been sent round via email and paper copies but not many people have read them. The e-learning will be amazing for our unit – Thank you
- Very fruitful and challenging
- Coming away with clearer picture
